

BootBOSS®

Pat. Pend.

SECURE & CONVENIENT ONSITE FOOTWEAR STORAGE

AUSTRALIAN DESIGNED & MANUFACTURED

How much are replacement boots costing your site??

PREVENT THEFT & MISPLACEMENT!

Tighter chain = Higher security

Boot insteps should **FACE OUTWARDS** for optimum security ▲

Boot security and foot hygiene are major concerns for many worksites.

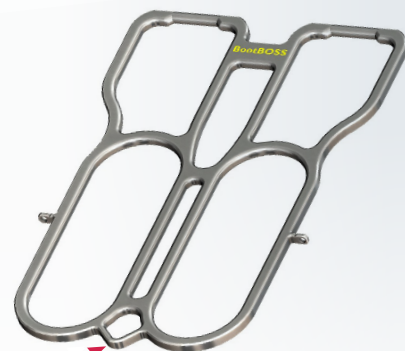

From locker rooms to mining camps, every environment that requires temporary storage faces these issues. The **BootBoss®** is a unique solution providing tidy, secure and accessible boot storage at any location.

Lightweight, robust and easy to use, the **BootBoss®** is your best answer to onsite footwear storage.

- ✓ **Secure** against theft and misplacement, suits padlock shanks Ø 3-5mm
- ✓ **Hygienic** individual storage enables drainage and ventilation as well as averts accidental sharing and the spread of foot disease
- ✓ **Simple** mounting to individual lockers, locker doors or to a dedicated wall space
- ✓ **Cost effective** at less than the price of a pair of boots
- ✓ **Suitable** for all boot styles and broad size ranges, from steel caps to gumboots

ROBUST & LIGHTWEIGHT

Lays flat when not in use

Provision for ID tag and PPE

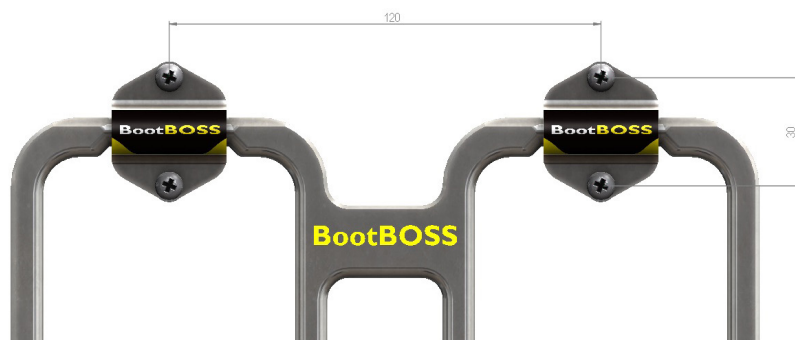

Simple and fast to install and use

STEP 1 Fit saddle hinges & mount frame using provided template (see below)

STEP 2 Insert boots as shown, loop chain over soles (above left)

STEP 3 Pull tight and fit link over lug then secure with padlock
